ACTION PLAN ON HUMAN RIGHTS

(Revised version: 2020)

Introduction:

Action Plan on Human Rights 2016 was prepared by the Ministry of Human Rights to improve the human rights situation in the country. The Action Plan consists of six broader areas of interventions with 60 Actions on i) Policy, Legal Reforms & Access to Justice; ii) Implementing Key Human Rights Priorities: Rights of women, children, minorities and vulnerable population; iii) Cross cutting interventions for protection of Human Rights: education, sensitization and awareness raising; iv) International/UN Treaty Implementation; v) Establishment and strengthening of National Human Rights Institutions; and vi) Implementation and Monitoring Mechanism of the Action Plan.

It has been more than three years since the implementation of Action Plan kicked off with the collaboration of federal ministries & provincial departments with the Ministry of Human Rights taking the lead for its overall implementation.

A number of initiatives have been taken by the Ministry under the Action Plan including policy intervention, legal reforms, capacity building of stakeholders, inclusion of human right in the curriculum at various levels, human rights violation redressal and financial assistance to victims and importantly the massive public awareness campaign for general public and duty bearers. Keeping in view the cross cutting nature of human rights realization, initiatives have proactively been taken by various social sector federal ministries and provincial departments to improve the overall situation of human rights in the country.

While reviewing the progress on implementation of the Action Plan, it has been observed that implementation on all 60 Actions has been initiated with more than 75 percent progress. On the basis of progress review, lesson-learned and new dimensions of international human rights priorities, the Action Plan has been modified in the following major areas under the same 06 thematic priorities and 60 Actions:
